

Does everyone keep asking you,  
“What do you want to do with the rest of your life?”  
Feeling stuck? We get it.

# SUMMER CAREER CAMP

Monday, July 6 to Friday, July 10, 2015 | 8:30 a.m. to 3:30 p.m.

**\$300 + GST**

If you are in grade 10, 11 or 12, join us for a week dedicated to getting you unstuck so you can jump-start your career journey.

---

Find out how careers happen in reality.

---

Identify the numerous influences on your career and how to respond to unplanned events.

---

Unpack your skills, interests, values and other attributes. Determine what you can put to use immediately and what you can work on.

---

Practice researching career options using methods that produce useful information.

---

Ask your career questions to professionals who will share their stories and advice with you in-person.

---

Map out the next three to five steps you will act on to move forward in your career.

---

Experience being on the U of A campus.

---

At this camp, we'll let you in on a secret: choosing only one career for the rest of your life isn't realistic.

Together, we will challenge this traditional career model. You will learn through experience how to explore your options and design a dynamic career path that adapts to the constant change within you and around you.

With our guidance and your determination, you will reflect and act on your learning to become an agent of your own career. By the end of the week, you should walk away with a map of three to five next steps to guide your career journey.

See you there,

**CAPS: Your U of A Career Centre**
